

Australia Privacy and Ad Technologies Notice

WordWildWest / BAD DUCK STUDIO, LDA

Status: jurisdiction-specific draft. Replace bracketed placeholders before publication. This is not legal advice.

Australia Privacy and Cookie / Ad Technologies Notice

Field	Details
Application	WordWildWest
Service Provider	BAD DUCK STUDIO, LDA
Contact	contact@badduckstudio.com
Address	[insert legal address]
Company/VAT number	[insert if applicable]

1. Scope

This notice applies to users located in Australia. Australia does not generally use the same cookie-specific opt-in model as the EU/UK, but the Privacy Act and Australian Privacy Principles may require transparent notice, appropriate collection practices, security, access/correction rights and information about overseas disclosures where the Privacy Act applies.

2. Technologies used

- Unity LevelPlay and mediated advertising partners for rewarded and interstitial ads.
- PlayFab for authentication, cloud saves, leaderboards, purchase validation and account deletion.
- Google Play Games, Apple and app store platform services.
- Local storage and device identifiers for core app features, settings and consent/preferences.

3. Consent and opt-out

Where we rely on consent, consent should be informed, voluntary, current and specific. We will not assume consent merely because you did not object. If personalised advertising is available, we recommend offering a clear opt-out or preference control to Australian users. If sensitive information is ever collected, express consent may be required unless another legal basis applies.

4. Notice to users

At or before collection, or as soon as practicable afterwards, users should be told who is collecting the information, what is collected, why it is collected, the consequences if it is not collected, the usual disclosures, privacy policy location and likely overseas disclosures where practicable.

5. Suggested Australia notice/control

WordWildWest uses advertising and similar technologies to show rewarded and interstitial ads, measure ad performance, protect against fraud, support purchases, manage cloud saves and improve app performance. You can manage personalised advertising choices in the Application settings and through your device privacy settings.

- Allow personalised ads
- Use non-personalised/contextual ads where available

- Manage device advertising ID
- Contact us about access, correction or privacy complaints

6. Overseas disclosures

Some service providers and advertising partners may process information outside Australia. Where the Privacy Act applies, we will take reasonable steps required by law in relation to overseas disclosures or otherwise rely on an applicable exception.
