New Zealand Privacy and Cookie / Ad Technologies Notice

Field	Details
Application	WordWildWest
Service Provider	BAD DUCK STUDIO, LDA
Contact	contact@badduckstudio.com
Address	[insert legal address]
Company/VAT number	[insert if applicable]

1. Scope

This notice applies to users located in New Zealand. The Privacy Act 2020 uses information privacy principles covering collection purpose, notice, source, fairness, security, access, correction, accuracy, retention, use, disclosure, overseas disclosure and unique identifiers.

2. Technologies used

- Unity LevelPlay and advertising partners for rewarded and interstitial ads.
- PlayFab for guest login, authentication, cloud saves, leaderboards, player statistics, purchase validation and account deletion.
- Google Play Games, Apple and platform services.
- Local storage and identifiers for settings, progress, privacy choices and technical operation.

3. Notice and purpose

We collect and use information only for lawful purposes connected with the Application, such as providing gameplay, accounts, cloud saves, leaderboards, purchases, security, fraud prevention, support, analytics and ads. Users should be told what information is collected, why, who receives it, whether collection is mandatory or optional, and how to exercise access and correction rights.

4. Personalised ads and controls

New Zealand law is not generally based on an EU-style cookie opt-in banner, but transparency and fairness still matter. We recommend giving New Zealand users a clear control to opt out of personalised advertising where available. If users opt out, they may still see contextual or non-personalised ads.

5. Overseas disclosure

Some information may be processed outside New Zealand by service providers or advertising partners. Where the Privacy Act 2020 applies, overseas disclosure requirements should be addressed, including appropriate safeguards or applicable legal permissions.

6. Suggested New Zealand notice/control

WordWildWest uses advertising and similar technologies to provide rewarded and interstitial ads, measure performance, support cloud saves, leaderboards and app security, and improve gameplay. You can manage personalised advertising choices in the Application settings and through your device privacy settings.

- Allow personalised ads
- Use contextual/non-personalised ads where available
- Manage device advertising ID
- Request access or correction of personal information
- Contact us with privacy questions or complaints
